

Structural Steel Project Profile

Structural Platework

Ore Storage Bin and Bin House • Snow Lake, Manitoba

Hudson Bay Mining and Smelting Co., Limited is a leading Canadian base and precious metals producer. The \$560 million Lalor mine development project was to recover zinc, gold, and copper deposits. Ocean Steel supplied and erected over 2000 tons of structural steel and plate work including this 73 ton ore storage bin and the supporting bin house. The bin measured 9.15 m in diameter and was 10.7 m high. The inside of the tank was lined with intermittently spaced 40# rails which required a unique connection to allow the rails to be field installed.

Tonnage: 73
Customer / Owner: Hudson Bay Mining & Smelting Co., Limited
Structural Engineer: Stantec
Year: 2011

CORP. OFFICE & NB PLANT #1:
400 Chesley Drive • Saint John, NB
Canada • E2K 5L6
Phone: 506-632-2600
Fax: 506-632-7689
